

## Room Ready For You<sup>®</sup> laundered with

### Standard Textile proudly offers sheeting and terry Room Ready For You<sup>®</sup> laundered with Tide<sup>®</sup>.

This innovative concept allows you to take sheeting and terry straight out of the box and directly into your guest rooms! Because Standard Textile products are pre-laundered with Tide, your housekeeping staff can rest assured that our products are clean, fresh and ready for immediate use.

This proven, time-tested process lets you protect your linen and terry investment by using Tide, a pH neutral detergent, while also protecting the environment, thanks to a pre-laundering process that requires less energy and is free of phosphates and harsh alkalines.

When you receive products that are pre-laundered and ready for immediate use, you no longer need to disrupt the laundry cycle for every new shipment. With our **Room Ready For You** sheets and towels, you save the time, labor and energy associated with the initial processing cycle. This can translate into savings of thousand of dollars every year—another unique, value-added benefit, exclusively from Standard Textile.
