Healthcare Sheeting by StandardTextile

EXCEL®

DELIVERING EXCELLENT PATIENT CARE.

HOME-STYLE COMFORT

Available only from Standard Textile, our patented Excel® sheets and pillowcases are designed to provide the comfort of home in your hospital. The 75/25 cotton/polyester blend is achieved by combining ring-spun cotton fill yarns with ring-spun cotton/synthetic warp yarns, in a plain-weave construction that soothes the skin while providing healthcare-specific performance advantages.

HEALTHCARE-GRADE DURABILITY.

In addition to enhancing the patient experience, Excel's high cotton content heightens stain-release ability and whiteness retention. Excel also offers you the value of extended service line by virtue of its bleached natural finish—a smart alternative to the unnecessary, resin-based “no-iron” finish. Excel sheets and pillowcases are pre-laundered and ready to use right out of the box, a convenience that delivers quantifiable savings to your operation.

75% Cotton/25% Polyester

Pre-laundered
