ON THE RIGHT TRACK[®]

CONVENIENCE AND SAFETY.

FAST AND EASY.

On The RightTrack[®] system reduces privacy curtain installation time by eliminating the hassle of separating curtains from individual carriers. One person can now exchange curtains in less than one minute. Using a retrofit kit, On The RightTrack easily installs without removing your existing track. A Grabber[™] mechanism is available to make installation and removal even easier and safer. Just load curtain panels onto the Grabber and attach the entire unit on the silent guide rails[™] in just seconds—no ladder or stool required.

A MORE PLEASANT ENVIRONMENT.

Ease of installation increases employee satisfaction and noise-free curtain operation improves patient comfort. On The Right Track is capable of being attached to your existing curtain tracks. Best of all, it can be made from any Standard Textile fabric to meet your specific design needs. On The Right Track privacy curtains are available with Impact Technology[®], making your curtains resistant to microbial growth, stains, and splashes.
