# PERFECT PANEL<sup>®</sup>

PERFECT EVERY TIME.

## EASY SNAP SYSTEM.

Perfect Panel<sup>®</sup> is an innovative solution for changing privacy curtains. Panels are attached with snaps, allowing you to replace only soiled panels, not the entire curtain. This means individual panels can be quickly and easily replaced without removing the mesh. You can change only what you need when you need it.

## SAVE TIME, MONEY, HASSLE.

Perfect Panel saves labor and eliminates the potential for hanging the wrong size privacy curtains. It also saves laundering costs and reduces attic stock. The overlapping panel design ensures patient privacy. Best of all, it can be made from any Standard Textile fabric to meet your specific design needs. Perfect Panel privacy curtains are available with Impact Technology<sup>®</sup>, making your curtains resistant to microbial growth, stains, and splashes.
