TRUVAL®
Healthcare Sheeting by StandardTextile

TRUVAL®

SOFTNESS AND SAVINGS

LONG-LASTING COMFORT.

The soft twill weave and high cotton content of our patented TruVal® sheets and pillowcases deliver an exceptionally comfortable experience for your patients. They also deliver an exceptionally good value for you, thanks to our exclusive Centium Core Technology®. This unique construction dramatically enhances strength and durability, and significantly reduces cost-per-use compared to traditional cotton/poly sheeting.

SMART PERFORMANCE.

TruVal puts long-staple ring-spun cotton next to patient skin and a synthetic microfilament fill in the core. This 75/25 cotton/synthetic blend increases patient comfort while improving whiteness retention and increasing stain-release performance. TruVal features a bleached, natural finish that extends product life by eliminating unnecessary, resin-based “no-iron” finish. It’s pre-laundered and ready to use right out of the box to save you time and money.

75% Cotton/25% Synthetic
