CENTIUM CORE TECHNOLOGY®

ONE STEP®

Centium Core Technology®

Centium Core Technology® is a patented weaving technology that dramatically improves product tensile strength, extends service life, and enhances performance.

OneSTEP®

OneSTEP® products provide both the laundry and housekeeping professional with One Solution To Enhance Productivity. EZ ID® size identification makes sorting a snap, while balanced hems and center lock labels allow for simplified bed make-up.

PERFORMANCE WITH A GENTLE HAND.

SMOOTH DURABILITY

ComforTwill® top covers offer sturdy Centium Core Technology® and single-pick construction in a 75% Cotton/25% Centium microfilament polyester blend. The difference is in the feel. An extra-smooth premium hand is due to the superior and patented engineering of Standard Textile. Choose from tone-on-tone stripe or the distinctive visual texture of reed.

LOW COST-PER-USE

The durable construction of ComforTwill® top covers stands up to industrial laundering, eliminating the need for frequent replacement. Center-lock labels, balanced hems, and a crease-resistant finish increase housekeeping efficiency.
