

UNIVAL®

UNIVAL®
Healthcare Sheeting by Standard Textile

STANDARD
TEXTILE est. 1940

Low maintenance. High satisfaction.

EXTENDED COMFORT.

Our cotton-rich UniVal® sheets use only long-staple ring-spun cotton for superior softness. The cotton surface conceals an innovative multifilament synthetic fill that dramatically enhances product strength and durability. Made with our exclusive Centium Core Technology®, this microfilament synthetic fill significantly reduces UniVal's cost per use compared to traditional cotton/poly products.

EXTENDED GOOD LOOKS.

Patented UniVal® sheets and pillowcases feature a no-iron, crease-resistant finish specially designed to retain a crisp, clean appearance. In addition to increasing patient comfort, the high cotton content improves stain-release performance and ensures excellent whiteness retention. UniVal® products are pre-laundered at our facilities before delivery to you, a convenience that offers quantifiable cost savings and enhanced productivity.

70% Cotton/30% Synthetic
